Data sheet

Partner Programme

Become an Awaretrain partner

Expand your security portfolio with a security awareness training and phishing simulation platform. Awaretrain enables partners to deliver structured awareness programmes, manage users, monitor results and support continuous improvement.

Why partner with Awaretrain?

Founded in 2014, with years of experience in security awareness.

Trusted by **100+ partners** worldwide.

ISO 27001 certified, hosted in the Netherlands and EEA-compliant.

All-in-one platform to continuously train and test employees.

Dedicated partner manager as your direct point of contact.

Human-focused approach to security awareness and behavioural risk.

Partnership models

Awaretrain offers different partnership models depending on the level of commercial, operational and service involvement required.

Referral partner

You introduce customers to Awaretrain. We handle the sales process and support.

- Connect customers with Awaretrain
- Leave sales and support to us
- Earn an attractive referral fee

Reseller

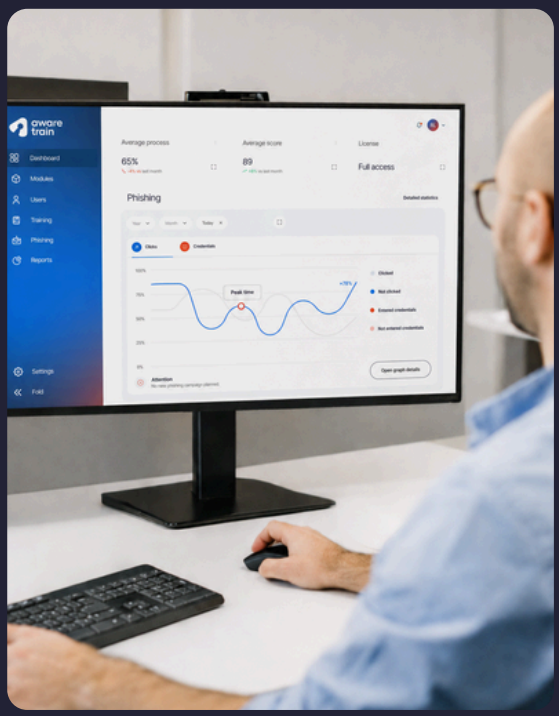
Add Awaretrain to your offering and advise customers on the right security awareness solution.

- Attractive purchase prices per customer
- Free training for your team
- Support throughout the sales process

Managed Service Provider

Offer security awareness as a managed service to your customers.

- Manage customers through the multi-tenant portal
- Volume discounts based on your total customer base
- Flexible monthly billing



Our security awareness platform

Manage customer environments from a central partner portal. Awaretrain brings together training programmes, phishing simulations, reporting and customer-specific configurations in one intuitive platform.

Platform capabilities

Central partner portal

Manage all your clients in one clear partner environment.

Extensive content library

75+ engaging modules, games and knowledge tests.

Multilingual content

Training content available in 9 languages.

Phishing simulations

Strengthen awareness with realistic phishing tests.

Custom branding

Configure branding for your organisation or customer environments.

Test environments

Create test environments for prospects and demonstrations.
